2. Any payment obligation of the Issuers are unconditionally and irrevocably guaranteed by a guarantee of Société Générale, Paris, France ("**Guarantor**"). The obligations arising under the guarantee constitute direct, unconditional, unsecured and general obligations of the Guarantor and rank and will rank at least pari passu with all other existing and future direct, unconditional, unsecured and general obligations of the Guarantor, including those in respect of deposits, but excluding any debts for the time being preferred by law and senior to any subordinated obligations. If the Issuer, for any reason whatsoever, owes to the holders of the Securities a sum or amount payable on a Security (including any premiums or discounts or other amounts payable under the Securities), the Guarantor guarantees to pay to the holder of the Security on request as soon as these payments fall due under the Securities the amount as it would have been made by the Issuer in accordance with the Terms and Conditions.

If the relevant Resolution Authority (§ 4 paragraph 4 of the Product-Specific Terms) exercises its Bail-in Power (§ 4 paragraph 4 of the Product-Specific Terms) on senior unsecured liabilities of the Guarantor, which results in the write-down or cancellation of all, or a portion of, the principal amount of, or outstanding amount payable in respect of, and/or interest on, such liabilities, and/or the conversion of all, or a portion, of the principal amount of, or outstanding amount payable in respect of, or interest on, such liabilities into shares or other securities or other obligations of the Guarantor or another person, including by means of a variation to their terms and conditions to give effect to such exercise of Bail-in Power, then the payment or delivery of the obligations shall be as if the Securities had been directly issued by the Guarantor itself.

There are no further claims of the Securityholders against the respective Issuer, irrespective of whether such Issuer would be in a position to settle its payment obligations from the Securities with other means at its disposal (such payment defaults, "**Defaulted Payments**"); however, subject to the right to terminate or early repayment ("**Limited Recourse**").

The rights of the Securityholders under the Guarantee are not affected and the obligations of the Guarantor under the Guarantee are not limited by the Limited Recourse; hence the Securityholder shall continue to have the right to institute any proceeding, judicial or otherwise, or otherwise assert a claim against the Guarantor to enforce any obligation due under the relevant Guarantee, including without limitation in respect of any Defaulted Payments.

In the event of such substitution, any reference in these Terms and Conditions to the Issuer shall from then on refer to the New Issuer.

Following such rescission by the Issuer, the Securityholders may instruct the account holding bank to submit a duly completed redemption notice to the Paying Agent, either by filling in the relevant form available from the Paying Agent or by otherwise stating all information and declarations required on the form (the "**Rescission Redemption Notice**"), and to request repayment of the Issue Price against transfer of the Securities to the account of the Paying Agent with the Clearing System. The Issuer shall make available the Issue Price to the Paying Agent within 30 calendar days following receipt of the Rescission Redemption Notice and of the Securities by the Paying Agent, whichever receipt is later, whereupon the Paying Agent shall transfer the Issue Price to the account specified in the Rescission Redemption Notice. Upon payment of the Issue Price all rights under the Securities delivered shall expire.
2. The Issuer may combine the declaration of rescission pursuant to paragraph 2 with an offer to continue the Securities on the basis of corrected Terms and Conditions. Such an offer and the corrected provisions shall be notified to the Securityholders together with the declaration of rescission in accordance with § 6 of the General Terms. Any such offer shall be deemed to be accepted by a Securityholder and the rescission shall not take effect, unless the Securityholder requests repayment of the Issue Price within four weeks following the date on which the offer has become effective in accordance with § 6 of the General Terms by delivery of a duly completed Rescission Redemption Notice via the account holding bank to the Paying Agent and by transfer of the Securities to the account of the Paying Agent with the Clearing System pursuant to paragraph 1. - 5. The right of the Securityholders to request redemption of the Securities with effect as of the Exercise Dates preceding the relevant Ordinary Termination Date shall not be affected by such Ordinary Termination by the Issuer in accordance with this § 3 of the Product-Specific Terms.

§ 4 PAYMENTS

- 1. All amounts payable under these Terms and Conditions will be rounded to the nearest DKK 0.0001 (DKK 0.00005 will be rounded upwards).
- 2. All amounts payable pursuant to these Terms and Conditions shall be paid to the Paying Agent for transfer to the Clearing System or pursuant to the Clearing System's instruction for credit to the relevant accountholders on the

dates stated in these Terms and Conditions. Payment to the Clearing System or pursuant to the Clearing System's instruction shall release the Issuer from its payment obligations under the Securities in the amount of such payment.

3. If any payment with respect to a Security is to be affected on a day other than a Payment Business Day, payment shall be affected on the next following Payment Business Day. In this case, the relevant Securityholders shall neither be entitled to any payment claim nor to any interest claim or other compensation with respect to such delay.
4. Neither the Issuer nor the Guarantor will be required to pay any additional amounts in respect of the Securities for or because of any withholding or deduction (i) required under any agreement as described in Section 1471(b) IRC or otherwise required under Sections 1471 to 1474 IRC, regulations or agreements including, but not limited to, official interpretations thereof or related implementing legislation for intergovernmental action in this regard; or (ii) imposed under Section 871(m) IRC.
5. Exercise of the Bail-in Power (as defined below) by the Relevant Resolution Authority (as defined below) on liabilities of Société Générale:
 - (a) If the Relevant Resolution Authority (as defined below) exercises its Bail-in Power (as defined below) on liabilities pursuant to Article L 613-30-3-I-3 of the French Monetary and Financial Code of Société Générale, ranking junior to liabilities of Société Générale that benefits from statutorily preferred exceptions pursuant to Article L 613-30-3-I 1° and 2 of the French Monetary and Financial Code, and senior to liabilities as defined in Article L 613-30-3-I-4 of the French Monetary and Financial Code, which results in the write-down or cancellation of all, or a portion of, the principal amount of, or outstanding amount payable in respect of, and/or interest on, such liabilities, and/or the conversion of all, or a portion, of the principal amount of, or outstanding amount payable in respect of, or interest on, such liabilities into shares or other securities or other obligations of Société Générale or another person, including by means of a variation to their terms and conditions to give effect to such exercise of Bail-in Power, then
 - (i) the Issuer's obligations to the Securityholders under the Securities shall be limited and reduced to the amounts of principal and/or interest that would be recoverable by the Securityholders and/or the value of the shares or other securities or other obligations of the Guarantor or another person that would be delivered to the Securityholders if the Securities had been directly issued by the Guarantor itself, and any obligations under the Securities had accordingly been directly subject to the exercise of the Bail-in Power, and,
 - (ii) the Issuer shall be entitled to, in lieu of payment, request the Securityholders to seek payment, in whole or in part, of any amounts due under the Securities subsequent to the reduction and/or delivery of any shares or other securities or other obligations of the Guarantor subsequent to a conversion provided for at (i) above, directly from the Guarantor under the guarantee for the Issuer's obligations.

If and to the extent the Issuer requests the Securityholders to directly seek payment and/or delivery from the Guarantor under its guarantee for the Issuer's obligations, the Issuer's liabilities under the Securities shall be deemed extinguished.

"Bail-in Power" means any statutory cancellation, write-down and/or conversion power existing from time to time under any laws, regulations, rules or requirements relating to the resolution of banks, banking group companies, credit institutions and/or investment firms incorporated in France in effect and applicable in France to the Guarantor (or any successor entity thereof), including but not limited to any such laws, regulations, rules or requirements that are implemented, adopted or enacted within the context of a European Union directive or regulation of the European Parliament and of the Council establishing a framework for the recovery and resolution of credit institutions and investment firms and/or within the context of a French resolution regime under the French monetary and financial code, or any other applicable laws or regulations, as amended, or otherwise, pursuant to which obligations of a bank, banking group company, credit institution or investment firm or any of its affiliates can be reduced, cancelled and/or converted into shares or other securities or obligations of the obligor or any other person.

The **"Relevant Resolution Authority"** is any authority with the ability to exercise the Bail-in Power.

- (b) No repayment of the principal amount of the Securities or payment of interest thereon (to the extent of the portion thereof affected by the exercise of the Bail-in Power) shall become due and payable after the exercise of any Bail-in Power by the Relevant Resolution Authority, unless such repayment or payment would be permitted to be made by the Guarantor under the laws and regulations then applicable to the Guarantor under its senior unsecured liabilities if the Guarantor itself was the issuer of the Securities, and the terms and conditions of the Securities shall be deemed to be modified accordingly.
- (c) Upon the Issuer becoming aware of the exercise of the Bail-in Power by the Relevant Resolution Authority on senior unsecured liabilities of the Guarantor, the Issuer shall notify the Securityholders in accordance with

§ 6 of the General Terms (and other parties that should be notified, if applicable). Any delay or failure by the Issuer to give notice shall not affect the effects on the Securities described in (a) above.

- (d) The reduction or modification described in (a) and (b) above with respect to the Securities shall not constitute an event of default and the terms and conditions of Securities shall continue to apply in relation to the residual principal amount of, or outstanding amount payable in respect of the Securities, subject to any modification of the amount of interest payable to reflect the reduction of the principal amount, and any further modification of the terms that the Relevant Resolution Authority may decide in accordance with applicable laws and regulations relating to the resolution of banks, banking group companies, credit institutions and/or investment firms incorporated in France.
6. All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives and subject to the provisions contained in § 3 of the General Terms.

§ 5 ADJUSTMENTS

1. Upon the occurrence of an Adjustment Event or Extraordinary Event each of which has a material effect on the Share or the price of the Share, the Issuer shall make any such adjustments to the Terms and Conditions as are necessary to adequately account for the economic effect of the Adjustment Event or Extraordinary Event on the Securities and to preserve, in essence, the economic profile that the Securities had prior to the occurrence of the Adjustment Event or Extraordinary Event in accordance with the following provisions (each an "**Adjustment**"). The Calculation Agent shall decide in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB) whether an Adjustment Event or Extraordinary Event has occurred and whether such Adjustment Event or Extraordinary Event has a material effect on the Share or the price of the Share.
2. An Adjustment may result in:
 - (a) the replacement of the Share by another share and/or cash and/or any other compensation, in each case as stipulated with reference to the relevant Adjustment Event or Extraordinary Event (a "**Replacement**"), and the determination of another stock exchange as the Exchange,and/or
 - (b) increases or decreases of specified variables and values or the amounts payable under the Securities taking into account:
 - (i) the effect of an Adjustment Event or Extraordinary Event on the price of the Share;
 - (ii) the diluting or concentrative effect of an Adjustment Event or Extraordinary Event on the theoretical value of the Share; or
 - (iii) any cash compensation or other compensation in connection with a Replacement;and/or
 - (c) consequential amendments to the share related provisions of the Terms and Conditions that are required to fully reflect the consequences of the Replacement.
3. Adjustments should correspond to the adjustments to options or futures contracts relating to the Share made by the Futures Exchange (a "**Futures Exchange Adjustment**").
 - (a) If the Futures Exchange Adjustment results in the replacement of the Share by a basket of shares, the Issuer shall be entitled to determine that only the share with the highest market capitalisation on the Cut-off Date shall be the (replacement) Share for the purpose of the Securities, and to hypothetically sell the remaining shares in the basket on the first Exchange Business Day following the Cut-off Date at the first available price and hypothetically reinvest the proceeds immediately afterwards in the (replacement) Share by making an appropriate adjustment to the specified variables and values or the amounts payable under the Securities. If the determination of the share with the highest market capitalisation would result in an economic inappropriate Adjustment, the Issuer shall be entitled to select any other share of the basket of shares to be

the (replacement) Share in accordance with the foregoing sentence. The Calculation Agent shall decide in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB) whether this is the case.

- (b) In particular, the Issuer shall not be required to make adjustments to the Terms and Conditions by reference to Futures Exchange Adjustments in cases where:
 - (i) the Futures Exchange Adjustments would result in economically irrelevant adjustments to the Terms and Conditions; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case;
 - (ii) the Futures Exchange Adjustments violate the principles of good faith or would result in adjustments of the Terms and Conditions contrary to the principle to preserve, in essence, the economic profile that the Securities had prior to the occurrence of the Adjustment Event or the Extraordinary Event and to adequately take into account the economic effect thereof on the price of the Share; the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether this is the case; or
 - (iii) in cases where no Futures Exchange Adjustment occurs but where such Futures Exchange Adjustment would be required pursuant to the adjustment rules of the Futures Exchange, the Issuer is not obliged but entitled to make an adjustment; in such case, the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) whether an Futures Exchange Adjustment would be required. The Issuer shall make Adjustments in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB).
 - (c) In the event of any doubts regarding the application of the Futures Exchange Adjustment or adjustment rules of the Futures Exchange or where no Futures Exchange exists, the Issuer shall make such adjustments to the Terms and Conditions which are required in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) to preserve, in essence, the economic profile that the Securities had prior to the occurrence of the Adjustment Event or the Extraordinary Event and to adequately take into account the economic effect thereof on the price of the Share.
- 4. Any reference made to the Share in these Terms and Conditions shall, if the context so admits, then refer to the replacement share. All related definitions shall be deemed to be amended accordingly.
 - 5. Adjustments shall take effect as from the date (the "**Cut-off Date**") determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB), provided that (if the Issuer takes into consideration the manner in which adjustments are or would be made by the Futures Exchange) the Issuer shall take into consideration the date at which such adjustments take effect or would take effect at the Futures Exchange.
 - 6. Adjustments as well as their Cut-off Date shall be notified by the Issuer in accordance with § 6 of the General Terms.
 - 7. Any Adjustment in accordance with this § 5 of the Product-Specific Terms does not preclude a subsequent termination in accordance with § 6 of the Product-Specific Terms on the basis of the same event.
 - 8. "**Adjustment Event**" means:
 - (a) the adjustment of options or futures contracts relating to the Share at the Futures Exchange or the announcement of such adjustment;
 - (b) any of the following actions taken by the issuer of the Share (the "**Company**"): capital increases through issuance of new shares against capital contribution and issuance of subscription rights to the shareholders, capital increases out of the Company's reserves, issuance of securities with options or conversion rights related to the Share, stock splits or any other splits, consolidation or alteration of category;
 - (c) a spin-off of a part of the Company in such a way that a new independent entity is formed, or that the spun-off part of the Company is absorbed by another entity; or
 - (d) any other event relating to the Share having a diluting or concentrative effect on the theoretical value of such Share.
 - 9. "**Extraordinary Event**" means:
 - (a) the termination of trading in, or early settlement of, options or futures contracts relating to the Share at the Futures Exchange or the announcement of such termination or early settlement;
 - (b) the termination of the listing of the Share on the Exchange due to a merger by absorption or by creation or due to any other reason, or the becoming known of the intention of the Company or the announcement of the Exchange that the listing of the Share at the Exchange will terminate immediately or at a later date and that

the Share will not be admitted, traded or listed at any other exchange which is comparable to the Exchange (including the exchange segment, if applicable) immediately following the termination of the listing;

- (c) a procedure is introduced or ongoing pursuant to which all shares or the substantial assets of the Company are or are liable to be nationalized or expropriated or otherwise transferred to public agencies, authorities or organizations;
- (d) the application for insolvency proceedings or for comparable proceedings with regard to the assets of the Company according to the applicable law of the Company; or
- (e) any other event that is economically equivalent to the before-mentioned events with regard to their effects.

10. Upon the occurrence, as determined by the Calculation Agent in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB), of an Administrator/Benchmark Event to a Benchmark (the "**Affected Benchmark**") on or after the Launch Date the following shall apply:

- (a) the Calculation Agent shall, using reasonable discretion (*billiges Ermessen*) (§ 317 BGB), determine the Benchmark that is the successor to or replacement of the Affected Benchmark which is formally recommended by any Relevant Nominating Body (the "**Successor Benchmark**"); or
- (b) if no Successor Benchmark is available, the Calculation Agent shall, using reasonable discretion (*billiges Ermessen*) (§ 317 BGB), determine the Benchmark which is customarily applied in international debt capital markets transactions for the purposes of determining the Affected Benchmark (the "**Alternative Benchmark**") and together with the Successor Benchmark, the "**New Benchmark**").

If the Issuer determines a New Benchmark as described above, then such New Benchmark shall subsequently be used in place of the Affected Benchmark as of the relevant effective date notified by the Issuer to the

Securityholders or, at the latest, for the immediately following period for which the Benchmark is to be determined (the "**Determination Period**") and subsequently for all following Determination Periods.

In case of a New Benchmark, the Issuer shall in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) make any such additional adjustments to the Terms and Conditions in order to follow market practice in relation to the New Benchmark or

(a) as are necessary to reflect any increased costs of the Issuer providing such exposure to the New Benchmark;

and/or

(b) in the case of more than one New Benchmark, making provision for allocation of exposure between the New Benchmarks;

and/or

(c) as are necessary to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit (as the case may be) to the Issuer as a result of the replacement of the Benchmark.

Where:

"Administrator/Benchmark Event" means, in relation to any Benchmark, the occurrence of a Benchmark Modification or Cessation Event, a Non-Approval Event, a Rejection Event or a Suspension/Withdrawal Event all as determined by the Issuer.

"Benchmark" means any figure which is a benchmark as defined in BMR and where any amount payable under the Securities, or the value of the Securities, is determined by reference in whole or in part to such figure, all as determined by the Issuer.

"Benchmark Modification or Cessation Event" means, in respect of the Benchmark any of the following has occurred or will occur:

(a) any material change in such Benchmark;

(b) the permanent or indefinite cancellation or cessation in the provision of such Benchmark;

(c) a regulator or other official sector entity prohibits the use of such Benchmark for the Issuer or any other entity generally or in respect of the Securities.

"BMR" means the EU Benchmarks Regulation (Regulation (EU) 2016/1011).

"Non-Approval Event" means, in respect of the Benchmark:

(a) any authorisation, registration, recognition, endorsement, equivalence or approval in respect of the Benchmark or the administrator or sponsor of the Benchmark has not been or will not be obtained;

(b) the Benchmark or the administrator or sponsor of the Benchmark has not been or will not be included in an official register; or

(c) the Benchmark or the administrator or sponsor of the Benchmark does not or will not fulfil any legal or regulatory requirement applicable to the Securities, the Issuer or the Benchmark,

in each case, as required under any applicable law or regulation in order for the Issuer or any other entity to perform its obligations in respect of the Securities. For the avoidance of doubt, a Non-Approval Event shall not occur if the Benchmark or the administrator or sponsor of the Benchmark is not or will not be included in an official register because its authorisation, registration, recognition, endorsement, equivalence or approval is suspended if, at the time of such suspension, the continued provision and use of the Benchmark is permitted in respect of the Securities under the applicable law or regulation during the period of such suspension.

"Relevant Nominating Body" means, in respect of the replacement of the Affected Benchmark:

(a) the central bank for the currency to which the benchmark or screen rate (as applicable) relates, or any central bank or other supervisory authority which is responsible for supervising the administrator of the benchmark or screen rate (as applicable); or

(b) any working group or committee sponsored by, chaired or co-chaired by or constituted at the request of (aa) the central bank for the currency to which the benchmark or screen rate (as applicable) relates, (bb) any central bank or other supervisory authority which is responsible for supervising the administrator of

the benchmark or screen rate (as applicable), (cc) a group of the aforementioned central banks or other supervisory authorities or (dd) the Financial Stability Board or any part thereof.

"Rejection Event" means, in respect of the Benchmark, the relevant competent authority or other relevant official body rejects or refuses or will reject or refuse any application for authorisation, registration, recognition, endorsement, equivalence, approval or inclusion in any official register which, in each case, is required in relation to the Securities, the Benchmark or the administrator or sponsor of the Benchmark under any applicable law or regulation for the Issuer or any other entity to perform its obligations in respect of the Securities.

"Suspension/Withdrawal Event" means, in respect of the Benchmark:

- (a) the relevant competent authority or other relevant official body suspends or withdraws or will suspend or withdraw any authorisation, registration, recognition, endorsement, equivalence decision or approval in relation to the Benchmark or the administrator or sponsor of the Benchmark which is required under any applicable law or regulation in order for the Issuer or any other entity to perform its obligations in respect of the Securities; or
- (b) the Benchmark or the administrator or sponsor of the Benchmark is or will be removed from any official register where inclusion in such register is or will be required under any applicable law in order for the Issuer or any other entity to perform its obligations in respect of the Securities.
- (c) For the avoidance of doubt, a Suspension/Withdrawal Event shall not occur if such authorisation, registration, recognition, endorsement, equivalence decision or approval is or will be suspended or where inclusion in any official register is or will be withdrawn if, at the time of such suspension or withdrawal, the continued provision and use of the Benchmark is permitted in respect of the Securities under the applicable law or regulation during the period of such suspension or withdrawal.

For the avoidance of doubt, the above is additional, and without prejudice, to any other terms of the Securities. In the event that under any such terms any other consequences could apply in relation to an event or occurrence the subject of an Administrator/Benchmark Event, the Calculation Agent shall determine which terms shall apply in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB).

Any amendments made by the Issuer pursuant to this § 5 of the Product-Specific Terms shall be notified by the Issuer pursuant to § 6 of the General Terms as soon as practicable following the determination thereof. Such notice shall be irrevocable and shall specify the date on which the relevant adjustments become effective.

In case of the occurrence of an Administrator/Benchmark Event due to the BMR, the provisions of this § 5 of the Product-Specific Terms shall take precedent over any other provisions in these Terms and Conditions under which the Issuer may make adjustments to the Terms and Conditions due to the occurrence of the same event; the Calculation Agent shall decide in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB) whether this is the case.

§ 6 EXTRAORDINARY TERMINATION BY THE ISSUER

1. Upon the occurrence of an Extraordinary Event, the Issuer may freely elect to terminate the Securities prematurely instead of making an Adjustment. In the case that an Adjustment would not be sufficient to preserve, in essence, the economic profile that the Securities had prior to the occurrence of the Extraordinary Event, the Issuer shall terminate the Securities prematurely; the Calculation Agent shall decide in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB) whether this is the case.

The Issuer may also freely elect to terminate the Securities prematurely in the case of a takeover-bid, i.e. an offer to take over or to swap or any other offer or any other act of an individual person or a legal entity that results in the individual person or legal entity buying, otherwise acquiring or obtaining a right to buy more than 10% of the outstanding shares of the Company as a consequence of a conversion or otherwise; all as determined by the Issuer based on notifications to the competent authorities or on other information determined as relevant by the Issuer.

The Issuer may also freely elect to terminate the Securities prematurely in the case of a negativ Strike.

2. If the Issuer and/or its Affiliates are, even following economically reasonable efforts, not in the position (i) to enter, re-enter, replace, maintain, liquidate, acquire or dispose of any Hedging Transactions or (ii) to realize, regain or transfer the proceeds resulting from such Hedging Transactions (the **"Hedging Disruption"**), the Calculation Agent may freely elect to terminate the Securities prematurely. The Calculation Agent shall decide in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB) whether a Hedging Disruption has occurred.

The Issuer may also freely elect to terminate the Securities prematurely if (i) due to the adoption of or any change in any applicable law or regulation (including any tax law) or (ii) due to the promulgation of or any change in the interpretation by any competent court, tribunal or regulatory authority (including any tax authority) that (A) it has become illegal to hold, acquire or dispose of any Shares or (B) it will incur materially increased costs in performing

the Issuer's obligation under the Securities (including due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position) (the "**Change in Law**"). The Calculation Agent shall decide in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB) whether a Change in Law has occurred.

3. If the Issuer has not made any adjustments in its reasonable discretion (*billiges Ermessen*) (§ 315 BGB) pursuant to § 5 paragraph 10 of the Product-Specific Terms due to the occurrence of an Administrator/Benchmark Event, the Issuer may, but is not obliged to, terminate extraordinarily the Securities.
4. Any extraordinary termination of the Securities shall be notified by the Issuer in accordance with § 6 of the General Terms within fourteen Business Days following the occurrence of the relevant event (the "**Extraordinary Termination Notice**"). The Extraordinary Termination Notice shall designate an Business Day as per which the extraordinary termination shall become effective (the "**Extraordinary Termination Date**") in accordance with the following provisions. Such Extraordinary Termination Date shall be not later than seven Payment Business Days following the publication of the Extraordinary Termination Notice.
5. If the Securities are called for redemption, they shall be redeemed at an amount per Security that is equivalent to their fair market value minus any expenses actually incurred by the Issuer under transactions that were required for winding up the Hedging Transactions (the "**Extraordinary Termination Amount**"). The Calculation Agent shall calculate the Extraordinary Termination Amount in its reasonable discretion (*billiges Ermessen*) (§ 317 BGB) by taking into account prevailing market conditions and any proceeds realised by the Issuer and/or any of its affiliates (within the meaning of § 271 paragraph 2 German Commercial Code (*HGB*), the "**Affiliates**") in connection with transactions or investments concluded by it in its reasonable commercial discretion (*vernünftiges kaufmännisches Ermessen*) for hedging purposes in relation to the assumption and fulfilment of its obligations under the Securities (the "**Hedging Transactions**").
6. The Issuer shall pay the Extraordinary Termination Amount to the Securityholders not later than on the tenth Payment Business Day following the Extraordinary Termination Date.

Section B - Key Information on the Issuer

The Issuer is a limited liability company established under German law with its registered office in Frankfurt am Main, Federal Republic of Germany. Its LEI is: 529900W18LQJJN6SJ336.

Principal Activities

The business purpose of the Issuer, as stipulated in its articles of association, is to issue and sell securities and engage in associated activities, as well as to purchase, sell, hold and manage its own interests in other companies in Germany and abroad, particularly those in the financial and service area generally, but excluding those activities and interests that would require authorization for the Issuer itself or would result in the Issuer being classified as a (mixed) financial holding company.

Major shareholders of the Issuer

The Issuer is a wholly owned subsidiary of Société Générale, Frankfurt, which is a branch of Société Générale, Paris.

Identity of its Managing Directors

Managing directors of Société Générale Effekten GmbH are currently Ms. Françoise Esnouf, Ms. Nurten Spitzer-Erdogan and Mr. Helmut Höfer.

Identity of its statutory auditors

The consolidated financial statements of the Issuer for the financial year 2019 and the consolidated financial statement for the financial year 2018 have been audited by Deloitte GmbH Wirtschaftsprüfungsgesellschaft, Franklinstraße 50, 60486 Frankfurt am Main, Federal Republic of Germany.

What are the key risks that are specific to the Issuer?

1. Risks resulting from the Issuer's limited own assets

The Issuer has only a limited liable capital stock amounting to EUR 25,564.59. Investors are therefore exposed to a considerably higher credit risk compared to an issuer with much greater capital resources. Accordingly, if the Issuer, in light of its limited capital stock, is unable to fund payments under securities issued by it, the Issuer's issuance business will be materially adversely affected as the Issuer will not or only partially be able to fulfil its obligations arising from such securities. Investors in securities may therefore lose parts of their investment or their entire investment (**risk of total loss**).

2. Risks in the case of hedging transactions with Société Générale

The Issuer enters into hedging transactions with Société Générale in relation to the securities. The relevant hedging transaction is intended to cover the amount of any payments due under the securities issued by the Issuer. If the financial resources provided by Société Générale as guarantor from these hedging transactions ultimately prove to be insufficient to fully satisfy the claims of all holders of securities issued under the guarantee structure, the terms and conditions of the securities will provide that the claims of the holders of such securities will lapse pro rata to the amount of the shortfall incurred by the Issuer. This means that recourse to the issuer is limited to any actual proceeds received from Société Générale (Limited Recourse). There are no further claims of the holders of such securities against the Issuer, irrespective of whether the Issuer would be in a position to settle its payment obligations from

the securities with other means at its disposal. The holders of such securities are therefore exposed to the credit risk of Société Générale. Therefore, in the case of an insolvency of Société Générale investors may lose parts of their investment or their entire investment (**risk of total loss**).

Section C - Key Information on the Securities

What are the main features of the Securities?

Type and class of the Securities

The Securities are bearer bonds under German law within the meaning of § 793 of the German Civil Code (*BGB*). The constituting of the Securities is governed by the laws of the Kingdom of Denmark. ISIN and exchange code are set out in the table annexed to this summary.

The rights attached to Securities

The Securities grant the investor, subject to the occurrence of a particular event (so-called "**Knock-out Event**"), the right to require the Issuer to pay a Redemption Amount when exercising. The redemption is made in Danish Krone ("**Issue Currency**").

The Securities have no fixed term and Securityholders can only exercise them on pre-determined Exercise Dates. This means that the Securities are **not** exercised **automatically** on a defined date (unlimited). Securityholders must exercise or sell their Securities in order to realise their financial value.

The Redemption Amount of each Security is equal to (i) the amount by which the Reference Price of the Underlying on the Valuation Date exceeds the Strike applicable on the Valuation Date multiplied by (ii) the Ratio.

If a Knock-out Event occurs, the Securities **expire prematurely worthless**.

The Strike of a Security is adjusted on each calendar day by the Adjustment Amount. The Adjustment Percentage is calculated on the basis of the Reference Interest Rate and the Risk Premium, both as determined by the Calculation Agent.

The Issuer is entitled to adjust the terms and conditions (in particular to exchange the Underlying) or to terminate the Securities upon occurrence of certain extraordinary events (e.g. cessation of the Underlying).

Transferability and Tradability of Securities

The Securities are freely transferable and can generally be traded freely. Free trade applies subject to selling restrictions, applicable laws and rules and regulations of the Clearing Systems.

Issue size

The issue size is set out in the table annexed to this summary.

Status of the Securities

The Securities constitute unsecured and unsubordinated liabilities of the Issuer. In the event of insolvency or dissolution of the Issuer, the Securities will rank *pari passu* with all current and further unsecured and unsubordinated liabilities of the Issuer, with the exception of those liabilities that are subject to contractual or legal precedence or subordination.

Where will the Securities be traded?

Application(s) will be made for the Securities to be traded on Nordic MTF Denmark with effect from 11 January 2021.

Is there a guarantee attached to the Securities?

Nature and scope of the guarantee

The payment and, where relevant, delivery obligations of the Issuer under the Terms and Conditions are guaranteed by an unconditional and irrevocable Guarantee of Société Générale, Paris, French Republic, (the "**Guarantor**").

The Issuer also enters into hedging transactions relating to the Securities with the Guarantor. The respective hedging transaction is intended to cover the amount of any payments due under the Securities. The Issuer's payment obligations arising from the Securities are limited to the financial resources provided by the Guarantor in the context of the hedging transactions (Limited Recourse). The rights of the Securityholders under the Guarantee are not affected by the limited recourse, however, and the obligations of the Guarantor under the Guarantee are not limited; accordingly, all Securityholders shall continue to have the right to initiate judicial or other proceedings against the Guarantor or assert other claims against the Guarantor in order to enforce obligations due under the Guarantee, including in particular with respect to defaulted payments.

Which are the most material risk factors pertaining to the Guarantor?

The Guarantor's ability to meet its obligations under the guarantee depends essentially on the SG Group's business results and financial situation.

1. Risks related to the global economy and financial markets

The SG Group's businesses are sensitive to changes in financial markets and economic conditions in Europe, the United States and elsewhere around the world. The SG Group could face a significant deterioration in market and economic conditions, in particular due to economic and political crises or other adverse events. Such events, which may develop quickly and thus potentially may not be anticipated and hedged, could affect the operating environment for the SG Group for short or extended periods.

2. Liquidity risks

The SG Group depends on access to financing and other sources of liquidity. Access to financing and liquidity constraints could have a material adverse effect on the SG Group's business, financial position, results of operations and ability to meet its obligations to its counterparties.

What are the key risks that are specific to the Securities?

1. Worthless expiration (Knock-out)

On the Exercise Date: In the case of a Unlimited TURBO **CALL** Warrant, if the Reference Price of the Underlying on the Exercise Date is **equal to or below** the Strike, the Warrant will expire **worthless**. The closer the Reference Price to the Strike, the higher the probability of such an expiration.

During the term: Additionally, Securityholders bear a **substantial risk** that their Unlimited TURBO Warrants will **expire worthless** prior to the end of their term. This will be the case **immediately upon the occurrence of a Knock-out Event**. The Securityholder will then receive **no payment**. The purchase price paid by the Securityholder for the Unlimited TURBO Warrant will be lost. The Securityholder will suffer a **total loss**. The closer the price of the Underlying to the Knock-out Barrier, the more likely such a loss will occur.

2. Risks relating to a missing term

Occurrence of a Knock-out Event between the Exercise Dates: Unlimited TURBO Warrants have the special feature that the warrants may only be exercised on **specific dates**. The particular implication of this is that if Securityholders

miss that date, they must wait until the next date for exercise. They then bear the risk that the Warrant will expire worthless in the meantime due to a Knock-out Event.

Realisation of the financial value of the Unlimited TURBO Warrants by sale: Additional risks arise from the fact that the Unlimited TURBO Warrants do not have a limited term. Securityholders must therefore sell their Unlimited TURBO Warrants in order to realise their financial value. This involves bearing the risk of an unexpected Knock-out Event resulting in a **total loss** of the purchase price paid. Again, the closer the price of the Underlying is to the Knock-out Barrier, the more likely such a loss is to occur.

3. Risks relating to the adjustment of the Strike

Risks arise for the Securityholder from the fact that the Strike of the Unlimited TURBO Warrants is adjusted on each calendar day by the Adjustment Amount. The calculation of the Adjustment Amount depends on the Reference Interest Rate chosen by the Calculation Agent and the Risk Premium determined by the Calculation Agent.

4. Risk of fluctuations in the value of the Underlying

Securityholders are affected by fluctuations in the value of the Underlying. These may have an adverse impact on the value of the Securities.

If investors purchase a Security with an Underlying, they also bear the risks associated with the Underlying as Securityholders. In particular, they bear the risk of fluctuations in the value of the Underlying. The fluctuations in the value of the Underlying depend on a variety of factors: Corporate actions or economic events relating to the business of the Underlying, general economic factors and speculative activities. It is therefore not possible to make reliable statements about the future performance of the Underlying for the Securities. In particular, the performance of an Underlying in the past does not represent a guarantee of its future performance. The selection of an Underlying is not based on the expectations or estimates of the Issuer with respect to the future performance of the Underlying selected. Securityholders are therefore not able to predict in advance the repayment for the Securities that they can expect in the future. If the value of the Underlying has fallen, Securityholders may suffer substantial losses (up to a **total loss**) on the repayment of the Securities or the early termination of the Securities.

5. Risks relating to the Underlying

The Securityholder bears similar risks as in the case of a direct investment in that Share. These include risks arising from the fluctuations in the company's share price. This includes the risk of the company becoming insolvent and of insolvency proceedings or a similar proceeding, in case of a company in another country, being initiated with respect to the company's assets. The risk exists for the Securityholders in all cases that the relevant Share may become **worthless** as the Underlying of their Security, thereby realizing the risks resulting from the nature of the security. The Securityholders will then suffer a **total loss**.

Afsnit B – Nøgleoplysninger om Udsteder

Hvem er Udstederen af Værdipapirerne?

Domicil og retlig form

Udsteder er et selskab med begrænset hæftelse, etableret under tysk ret med dets registrerede hovedkontor i Frankfurt am Main, Forbundsrepublikken Tyskland. Dets LEI er: 529900W18LQJJN6SJ336.

Udsteders hovedvirksomhed

Udsteders formål er, som angivet i selskabets vedtægter, at udstede og sælge værdipapirer og udøve tilknyttede aktiviteter, ligesom formålet er at købe, sælge, holde og administrere dets egne interesser i andre selskaber i og uden for Tyskland, særligt indenfor den finansielle sektor og servicesektoren generelt, dog ikke sådanne aktiviteter og interesser, der kræver licens for Udsteder selv, eller som ville medføre, at Udsteder blev klassificeret som et blandet finansielt holdingselskab.

Udsteders større aktionærer

Udsteder er et helejet datterselskab af Société Générale, Frankfurt, som er en filial af Société Générale, Paris.

De Administrerende Direktørers identitet

Administrerende direktører i Société Générale Effekten GmbH er på nuværende tidspunkt fr. Françoise Esnouf, fr. Nurten Spitzer-Erdogan og hr. Helmut Höfer.

Revisorernes identitet

Den konsoliderede årsrapport fra Udsteder for det finansielle år 2019 og det konsoliderede årsregnskab for det finansielle år 2018 er revideret af Deloitte GmbH Wirtschaftsprüfungsgesellschaft, Franklinstraße 50, 60486 Frankfurt am Main, Forbundsrepublikken Tyskland.

Hvad er de vigtigste risici, der er specifikke for Udstederen?

1. Risici som følge af Udsteders begrænsede egenkapital

Udsteder har alene en selskabskapital på 25.564,59 EUR. Investorer er derfor udsat for en væsentlig højere kreditrisiko i forhold til en udsteder med et meget højere kapitalberedskab. Hvis Udsteder, som følge af den begrænsede selskabskapital, bliver ude af stand til at betale dets forpligtelser i henhold til værdipapirer udstedt af selskabet, vil Udsteders udstedelsesaktiviteter blive væsentligt negativt påvirket, idet Udsteder ikke eller kun delvist vil være i stand til at opfylde dets forpligtelser i henhold til sådanne værdipapirer. Investorer i værdipapirerne kan derfor tabe dele af deres investering eller hele deres investering (**risiko for totalt tab**).

2. Risici i forbindelse med hedgingtransaktioner med Société Générale

Udsteder indgår hedgingtransaktioner med Société Générale vedrørende værdipapirerne. De relevante hedgingtransaktioner har til hensigt at afdække beløbet for enhver forfalden betaling under værdipapirerne udstedt af Udsteder. Hvis de finansielle ressourcer, som tilvejebringes af Société Générale som garantistiller i forbindelse med disse hedgingtransaktioner, viser sig at være utilstrækkelige til fuldt ud at dække krav fra indehavere af værdipapirer, der er udstedt under garantistrukturen, bestemmer værdipapirernes vilkår og betingelser, at kravene fra værdipapirindehaverne bortfalder pro rata i forhold til den underbalance i kapitalressourcer, som opstår for Udsteder. Det betyder, at regres mod udstederen er begrænset til de faktiske beløb modtaget fra Société Générale (Begrænset Regres). Disse værdipapirindehavere har ikke yderligere krav mod Udsteder, desuagtet at Udstederen på andre måder ville være i stand til at afregne dets betalingsforpligtelser i henhold til værdipapirerne. Værdipapirindehaverne er således eksponeret mod kreditrisikoen for Société Générale. I tilfælde af Société Générales konkurs kan investorer således tabe dele af deres investering eller hele deres investering (**risiko for totalt tab**).

Afsnit C – Nøgleoplysninger om Værdipapirerne

Hvad er Værdipapirernes vigtigste karakteristika?

Værdipapirernes type og klasse

Værdipapirerne er ihændehaverobligationer under tysk ret som defineret i § 793 i den tyske civillovbog (*BGB*). Oprettelsen af Værdipapirerne reguleres af lovgivningen i Kongeriget Danmark. ISIN og udvekslingskode findes i tabellen vedhæftet dette resumé.

De rettigheder, der er knyttet til Værdipapirerne

Værdipapirerne giver investor, forudsat at en nærmere bestemt begivenhed ikke er indtrådt (såkaldt "**Knock-out Begivenhed**"), retten til at anmode om betaling af et Indløsningsbeløb fra Udsteder. Betalingen foretages i Danske kroner ("**Udstedelsesvalutaen**").

Værdipapirerne har ikke en fast løbetid, og Værdipapirindehavere kan alene udnytte dem på forudbestemte Udnyttelsesdatoer. Det betyder, at Værdipapirerne **ikke** udnyttes **automatisk** på en defineret dato (ubegrænset). Værdipapirindehavere skal udnytte eller sælge deres Værdipapirer for at realisere deres finansielle værdi.

Indløsningsbeløbet for hvert Værdipapir er lig med (i) beløbet, hvormed Referencekursen af det Underliggende på Værdiansættelsesdatoen overstiger Aftalesatsen, der er anvendelig på Værdiansættelsesdatoen, ganget med (ii) Forholdstallet.

Hvis en Knock-out Begivenhed indtræder, **udløber** Værdipapirerne **før tid uden værdi**.

Aftalesatsen for et Værdipapir er justeret på hver kalenderdag med Justeringsbeløbet. JJusteringsprocenten beregnes ud fra Referencerenten og Risikopræmien, begge som bestemt af Beregningsagenten.

Udsteder er berettiget til at justere vilkår og betingelser (især vedrørende ombytning af det Underliggende) eller til at afvikle Værdipapirerne ved indtræden af bestemte ekstraordinære begivenheder (f.eks. ophør af det Underliggende).

Værdipapirernes omsættelighed

Værdipapirerne er frit omsættelige og kan generelt handles frit. Den frie omsættelighed er dog underlagt omsættelighedsbegrænsninger, gældende lovgivning samt Clearingsystemernes regler og vilkår.

Udstedelsesstørrelse

Udstedelsesstørrelsen fremgår af tabellen vedhæftet dette resumé.

Værdipapirernes status

Værdipapirerne udgør usikrede og ikke-efterstillede forpligtelser for Udsteder. I tilfælde af konkurs eller opløsning af Udsteder rangerer Værdipapirerne pari passu med alle nuværende og fremtidige usikrede og ikke-efterstillede forpligtelser for Udsteder, med undtagelse af sådanne forpligtelser, der er underlagt kontraktuel eller juridisk forrang eller efterstillelse.

Hvor vil Værdipapirerne blive handlet?

Ansøgning vil blive indsendt for optagelse af Værdipapirerne kan handles på Nordic MTF Denmark med virkning fra 11. januar 2021.

Er der en garanti knyttet til Værdipapirerne?

Garantiens art og omfang

Udsteders betalingsforpligtelser - og hvis relevant, leveringsforpligtelser i henhold til de gældende Vilkår og Betingelser – er ubetinget og uigenkaldeligt garanteret af en Garanti fra Société Générale, Paris, Den Franske Republik, ("**Garantistiller**").

Udsteder indgår også hedgingtransaktioner vedrørende Værdipapirerne med Garantistiller. Disse hedgingtransaktioner er tilsigtet at afdække enhver forfalden betaling under Værdipapirerne. Udsteders betalingsforpligtelser i henhold til Værdipapirerne, er begrænset til de finansielle ressourcer stillet til rådighed af Garantistiller i overensstemmelse med hedgingtransaktionerne (Begrænset Regres). Værdipapirindehavernes rettigheder under Garantien påvirkes dog ikke af den begrænsede regres, og Garantistillers forpligtelser under Garantien er ikke begrænsede; alle Værdipapirindehavere har derfor fortsat retten til at tage retslige skridt eller lignende mod Garantistiller eller gøre andre krav gældende mod Garantistiller for at håndhæve de forfaldne forpligtelser i henhold til Garantien, herunder især i forhold til misligholdte betalinger.

Garantistiller

Det juridiske og kommercielle navn på selskabet er Société Générale. Société Générale er etableret den 4. maj 1864 i Frankrig, har status som et aktieselskab (*société anonyme*) etableret under Fransk ret med en aktiekapital på 1.066.714.367,50 EUR, og har status som en bank. Hvad er de væsentligste risikofaktorer vedrørende Garantistiller?

Garantistillers evne til at opfylde sine forpligtelser under garantien afhænger i al væsentlighed af SG-Koncernens driftsresultater og finansielle situation.

1. Risici, der relaterer sig til den globale økonomi og finansielle markeder

SG-Koncernens forretningsområder er følsomme over for udviklingen i de finansielle markeder og i de økonomiske forhold i Europa, USA samt andre steder i verden. SG-Koncernen kunne blive mødt med en væsentlig forværring af markedsforholdene og de økonomiske forhold, særligt grundet økonomiske og politiske kriser eller andre ugunstige begivenheder. Sådanne begivenheder, som kan udvikle sig hurtigt og derfor eventuelt ikke er forudset eller afdækket, kan påvirke driften for SG-Koncernen for korte eller længere perioder.

2. Likviditetsrisici

SG-Koncernen er afhængig af adgang til finansiering og kilder til likviditet. Adgang til finansiering og likviditetsbegrænsninger kan have væsentlig ugunstig virkning på SG-Koncerns forretning, finansielle position, driftsresultater og evnen til at opfylde sine forpligtelser over for modparter.

Hvad er de vigtigste risici, der er specifikke for værdipapirerne?

1. Ingen værdi ved udløb (Knock-out)

På Udnyttelsesdatoen: For en Unlimited TURBO **CALL** Warrant: hvis Referencekursen af det Underliggende på Udnyttelsesdatoen er lig med eller under Aftalesatsen, vil Warranten udløbe **uden værdi**. Jo tættere Referencekursen er på Aftalesatsen, desto højere er sandsynligheden for sådant udløb.

Under løbetiden: Dertil kommer, at Værdipapirindehavere påtager sig en **væsentlig risiko** for, at deres Unlimited TURBO Warrants udløber **uden værdi** før løbetidens udløb. Dette er tilfældet **straks, når en Knock-out Begivenhed indtræder**. Værdipapirindehaveren modtager i sådant et tilfælde **ingen betaling**. Købsprisen betalt af Værdipapirindehaveren for den pågældende Unlimited TURBO Warrant vil være tabt. Værdipapirindehaveren vil lide et **totalt tab**. Jo tættere prisen på det Underliggende er på Knock-out Grænsen, desto højere er sandsynligheden for, at et sådant tab indtræder.

2. Risici vedrørende en manglende løbetid

Knock-out Begivenhed, der indtræder imellem Udnyttelsesdatoerne: Unlimited TURBO Warrants har den særlige egenskab, at de kun kan udnyttes på **specifikke datoer**. Den særlige konsekvens af dette er, at hvis Værdipapirindehavere ikke får udnyttet på denne dato, må de vente til den næste udnyttelsesdato. Herved bærer de risikoen for, at Warranten udløber uden værdi i perioden på grund af en Knock-out Begivenhed.

Realisation af den finansielle værdi af de Unlimited TURBO Warrants ved salg: Yderligere risici er forbundet med det forhold, at Unlimited TURBO Warrants ikke har en begrænset løbetid. Værdipapirindehavere skal derfor sælge deres Unlimited TURBO Warrants for at realisere deres finansielle værdi. Dette indebærer risikoen for en uventet Knock-out Begivenhed, der resulterer i et **totalt tab** af den betalte købspris. Derfor, jo tættere prisen på det Underliggende er på Knock-out Grænsen, desto større er sandsynligheden for, at et sådant tab opstår.

3. Risici vedrørende justeringen af Aftalesatsen

Risici opstår for Værdipapirindehaveren fra det forhold, at Aftalesatsen for Unlimited TURBO Warrants justeres på hver kalenderdag med Justeringsbeløbet. Beregningen af Justeringsbeløbet afhænger af Referencerenten valgt af Beregningsagenten samt Risikopræmien som fastsat af Beregningsagenten.

4. Risiko for udsving i værdien på det Underliggende

Værdipapirindehavere påvirkes af udsving i værdien af det Underliggende. Dette kan have en negativ påvirkning på værdien af Værdipapirerne.

Hvis investorer køber et Værdipapir med en Underliggende, bærer de derudover risikoen forbundet med det Underliggende som Værdipapirindehavere. Særligt bærer de risikoen for udsving i værdien af det Underliggende. Udsvingene i værdien af det Underliggende afhænger af en række faktorer: beslutninger truffet af selskabets organer eller økonomiske begivenheder, der påvirker virksomheden for det Underliggende, generelle økonomiske faktorer og spekulative aktiviteter. Det er således ikke muligt at lave pålidelige udtalelser om den fremtidige udvikling for det Underliggende for Værdipapirerne. I særdeleshed gælder, at historiske resultater for en Underliggende ikke er

udtryk for en garanti for dets fremtidige udvikling. Udvælgelsen af en Underliggende er ikke baseret på Udsteders forventninger eller til den fremtidige udvikling af den/de valgte Underliggende. Værdipapirindehavere vil derfor ikke på forhånd have mulighed for at vurdere den fremtidige tilbagebetaling for Værdipapirerne. Hvis værdien af det Underliggende er faldet, kan Værdipapirindehavere lide væsentlige tab (op til et **totalt tab**) ved tilbagebetalingen af Værdipapirerne eller førtidig afvikling af Værdipapirerne.

5. Risici vedrørende det Underliggende

Værdipapirindehavere bærer lignende risici som ved direkte investering i den pågældende Aktie. Disse risici opstår fra udsvingene i selskabets aktiekurs. Dette omfatter risikoen for, at selskabet bliver insolvent, for at det bliver taget under konkursbehandling eller at en lignende behandling (i tilfælde af et selskab i et andet land) indledes i forhold til selskabets aktiver. Risikoen for Værdipapirindehavere i alle tilfælde er, at den relevante Aktie bliver værdiløs som det Underliggende for deres Værdipapir, hvorved risiciene forbundet med denne type værdipapirer bliver aktualiseret. Værdipapirindehavere vil i så fald lide et **totalt tab**.

Mitkä ovat liikkeeseenlaskijaan liittyvät olennaiset riskit?

1. Liikkeeseenlaskijan omien varojen rajallisuudesta johtuvat riskit

Liikkeeseenlaskijalla on vain rajoitettu osakepääoma, jonka suuruus on EUR 25 564,59. Sijoittajat altistuvat siten merkittävästi korkeammalle luottoriskille verrattuna liikkeeseenlaskijaan, jolla on paljon suuremmat pääomavarat. Näin ollen, mikäli liikkeeseenlaskija sen rajallisen pääoman perusteella ei kykene rahoittamaan sen liikkeeseen laskemien arvopapereiden perusteella maksettavia maksuja, on tällä merkittävän haitalliset vaikutukset sen liikkeeseenlaskutoimintaan, koska liikkeeseenlaskija ei pysty tai pystyy vain osittain täyttämään näistä arvopapereista johtuvat velvoitteensa. Arvopapereihin sijoittaneet sijoittajat voivat siten menettää sijoitetun pääoman kokonaisuudessaan tai osittain (**riski täydellisestä tappiosta**).

2. Riskit Société Généraleen kanssa tehtäviin suojausliiketoimiin liittyen

Liikkeeseenlaskija toteuttaa suojausliiketoimia Société Généraleen kanssa arvopapereihin liittyen. Asiaankuuluva suojausliiketoimi on tarkoitettu kattamaan liikkeeseenlaskijan liikkeeseen laskemista arvopapereista johtuvien mahdollisten erääntyneiden maksujen määrää. Jos Société Généraleen takaajana näistä suojausliiketoimista tarjoamat taloudelliset resurssit lopulta osoittautuvat riittämättömiksi täyttämään täysin takausrakenteen alla liikkeeseen laskettujen kaikkien arvopapereiden haltijoiden vaatimukset, arvopapereiden ehdoista johtuu, että näiden arvopapereiden haltijoiden vaatimukset raukeavat vastaavassa suhteessa liikkeeseenlaskijalle aiheutunutta vajetta vastaavaan määrään. Tämä tarkoittaa, että regressioikeus suhteessa liikkeeseenlaskijaan on rajoitettu mahdollisiin tosiasiallisiin Société Généraleelta saatuihin tuottoihin (rajoitettu regressioikeus). Näiden arvopapereiden haltijoilla ei ole mitään lisävaatimuksia liikkeeseenlaskijaa kohtaan riippumatta siitä pystyisikö liikkeeseenlaskija suorittamaan arvopapereista johtuvat maksuvelvollisuutensa muilla sen käytettävissä olevilla keinoilla. Näiden arvopapereiden haltijat altistuvat siten Société Généraleen luottoriskille. Mikäli Société Générale joutuu konkurssiin, sijoittajat voivat menettää sijoitetun pääoman kokonaisuudessaan tai osittain (**riski täydellisestä tappiosta**).

Osa C – Arvopapereiden avaintiedot

Mitkä ovat arvopapereiden keskeiset ominaisuudet?

Arvopapereiden tyyppi ja laji

Arvopaperit ovat Saksan lain alaisia Saksan siviilikoodin (*BGB*) 793 pykälän tarkoittamia haltijavelkakirjoja. Arvopapereiden perustamiseen sovelletaan Tanskan kuningaskunta lainsäädäntöä. ISIN-koodi ja pörssikoodi esitetään tämän tiivistelmän liitetaulukossa.

Arvopapereihin liittyvät oikeudet

Arvopaperit antavat sijoittajalle oikeuden toteutuksen yhteydessä vaatia liikkeeseenlaskijaa maksamaan lunastusmäärän (Redemption Amount) tietyn tapahtuman (ns. **knock-out-tapahtuma**, Knock-out Event) esiintyessä. Lunastus tehdään Tanskan kruunu ("**liikkeeseenlaskuvaluutta**").

Arvopapereilla ei ole kiinteää voimassaoloaikaa ja arvopapereiden haltijat voivat toteuttaa ne ainoastaan ennalta määritettyinä toteutuspäivinä. Tämä tarkoittaa sitä, että arvopapereita ei toteuteta **automaattisesti** määritettynä päivänä (rajoittamaton). Arvopapereiden haltijoiden täytyy toteuttaa tai myydä arvopaperinsa realisoidakseen niiden rahallisen arvon.

Kunkin arvopaperin lunastusmäärä vastaa (i) määrää, jolla kohde-etuuden viitehintaa (Reference Price) arvostuspäivänä (Valuation Date) ylittää arvostuspäivänä sovellettavan toteutushinnan (Strike) kerrottuna (ii) kertoimella (Ratio).

Jos knock-out-tapahtuma esiintyy, arvopaperit **erääntyvät ennenaikaisesti arvottomina**.

Arvopaperin toteutushintaa muutetaan päivittäin muutosmäärällä (Adjustment Amount). Muutosprosentti (Adjustment Percentage) lasketaan laskenta-asiamiehen määrittämän viitekoron (Reference Interest Rate) ja riskipreemion (Risk Premium) perusteella.

Liikkeeseenlaskijalla on oikeus muuttaa ehtoja (erityisesti vaihtaa kohde-etuus) tai eräännyttää arvopaperit tiettyjen epätavanomaisten tapahtumien esiintyessä (esim. kohde-etuuden lakkaaminen).

Arvopapereiden siirrettävyys ja vaihdettavuus

Arvopaperit ovat vapaasti siirrettävissä ja niillä voidaan useimmiten käydä kauppaa vapaasti. Vapaaseen vaihdantaan sovelletaan myyntirajoituksia, asiaankuuluvia lakeja sekä selvitysjärjestelmien sääntöjä ja määräyksiä.

Liikkeeseenlaskun suuruus

Liikkeeseenlaskun koko esitetään tämän tiivistelmän liitetaulukossa.

Arvopapereiden asema

Arvopaperit ovat liikkeeseenlaskijan vakuudettomia ja etuoikeutettuja velvoitteita. Liikkeeseenlaskijan maksukyvyttömyyden tai purkautumisen yhteydessä arvopaperit ovat etuoikeusasemaltaan vähintään samassa asemassa (pari passu) kuin liikkeeseenlaskijan kaikki muut nykyiset ja tulevat vakuudettomat ja etuoikeutetut velvoitteet, pois lukien ne velvoitteet, joihin sovelletaan sopimukseen tai lakiin perustuvaa etuoikeutta tai toissijaisuutta.

Missä arvopapereilla tullaan käymään kauppaa?

Arvopapereita haetaan kaupankäynnin kohteeksi Nordic MTF Denmark 11. tammikuuta 2021 alkaen.

Arvopapereihin liittyvä takaus?

Takauksen luonne ja soveltamisala

Société Générale, Pariisi, Ranskan tasavalta, ("**takaaja**", Guarantor) on antanut ehdottoman ja peruuttamattoman takauksen maksusta ja soveltuvin osin liikkeeseenlaskijan ehtojen mukaisista toimitusvelvollisuuksista.

Liikkeeseenlaskija tekee takaajan kanssa myös arvopapereihin liittyviä suojaavia liiketoimia. Kunkin suojaavan liiketoimen on tarkoitus kattaa kaikki arvopapereista maksettavat maksut. Liikkeeseenlaskijan arvopapereista johtuvat maksuvelvoitteet rajoittuvat takaajan tarjoamiin taloudellisiin resursseihin suojaavien liiketoimien yhteydessä (rajoitettu takautumisoikeus, Limited Recourse). Rajoitettu takautumisoikeus ei kuitenkaan vaikuta arvopapereiden haltijoiden takauksesta johtuviin oikeuksiin, eikä takaajan takauksesta johtuvia velvoitteita ole rajattu. Näin ollen, kaikilla arvopapereiden haltijoilla on edelleen oikeus aloittaa oikeudenkäynti tai muu menettely takaajaa vastaan tai esittää muita vaatimuksia takaajaa vastaan takaajaan takauksesta johtuvien velvoitteiden täytäntöönpanemiseksi, mukaan lukien erityisesti maksamattomat maksut.

Mitkä ovat takaajaan liittyvät olennaisimmat riskitekijät?

Takaajan kyky vastata velvoitteistaan riippuu olennaisesti SG Group'in liiketoiminnan tuloksista ja taloudellisesta tilanteesta.

1. Maailmanlaajuiseen talouteen ja rahoitusmarkkinoihin liittyvät riskit

SG Group'in yritykset ovat alttiita rahoitusmarkkinoilla ja taloudellisissa olosuhteissa Euroopassa, Yhdysvalloissa ja muualla maailmassa tapahtuville muutoksille. SG Group voi kärsiä markkinoiden ja taloudellisten olosuhteiden huomattavasta heikkenemisestä, erityisesti taloudellisten ja poliittisten kriisien tai muiden haitallisten tapahtumien vuoksi. Kyseiset tapahtumat, jotka voivat kehittyä nopeasti ja jolloin niitä ei välttämättä voi ennakoida eikä niiltä voi suojautua, voivat vaikuttaa SG Group'in toimintaympäristöön lyhyen tai pidemmän aikaa.

2. Likviditeettiin liittyvät riskit

SG Group on riippuvainen rahoituksen saamisesta sekä muista likviditeetin lähteistä. Rahoituksen saatavuudella tai likviditeettirajoitteilla voi olla olennaisen haitallinen vaikutus SG Group:in liiketoimintaan, taloudelliseen asemaan, toiminnan tuloksiin ja kykyyn täyttää vastapuoliin kohdistuvat velvoitteensa.

Mitkä ovat arvopapereihin liittyvät keskeiset riskit?

1. Erääntyminen arvottomana (Knock-out)

Toteutuspäivänä: Jos kohde-etuuden viitehintaa on rajoittamattoman TURBO **CALL**-warrantin osalta toteutuspäivänä **yhtä suuri tai pienempi** kuin toteutushinta, warrantti erääntyy **arvottomana**. Mitä lähempänä viitehintaa on toteutushintaa, sitä suurempi todennäköisyys on kyseisellä erääntymisellä.

Voimassaolon aikana: Lisäksi arvopapereiden haltijat kantavat **merkittävän riskin** siitä, että heidän rajoittamattomat TURBO -warranttinsa **erääntyvät arvottomina** ennen niiden voimassaolon päättymistä. Näin tapahtuu **välittömästi knock-out-tapahtuman esiintyessä**. Arvopapereiden haltija ei tällöin saa **mitään maksua**. Arvopapereiden haltija menettää rajoittamattomista TURBO-warranteista maksamansa ostohinnan. Arvopapereiden haltija **menettää kaiken**. Mitä lähempänä kohde-etuuden hinta on knock-out-rajaa, sitä todennäköisemmin tällainen menetys tapahtuu.

2. Puuttuvaan voimassaoloon liittyvät riskit

Knock-out-tapahtuman esiintyminen toteutuspäivien välillä: Rajoittamattomilla TURBO-warranteilla on ominaisuus, jonka mukaan warrantit voidaan toteuttaa ainoastaan tiettyinä päivinä. Tällä on erityistä merkitystä siinä tapauksessa, että arvopapereiden haltijat unohtavat kyseisen päivämäärän, jolloin heidän on odotettava seuraavaa toteutuspäivää. Tällöin on olemassa riski, että warrantti erääntyy sillä välin arvottomana knock-out-tapahtuman vuoksi.

Rajoittamattomien TURBO -warranttien rahallisen arvon realisointi myynnillä: Lisäriskejä aiheutuu siitä, että rajoittamattomilla TURBO-warranteilla ei ole rajoitettua voimassaoloaikaa. Näin ollen arvopapereiden haltijoiden täytyy myydä rajoittamattomat TURBO -warranttinsa realisoidakseen niiden rahallisen arvon. Tähän liittyy riski maksetun ostohinnan **menettämisestä kokonaan** odottamattoman knock-out-tapahtuman vuoksi. Mitä lähempänä kohde-etuuden hinta on knock-out-rajaa, sitä todennäköisemmin tällainen menetys voi aiheutua.

3. Toteutushinnan (Strike) muutokseen liittyvät riskit

Rajoittamattomien TURBO-warranttien toteutushintaa muutetaan jokaisena kalenteripäivänä muutosmäärällä (Adjustment Amount), mistä aiheutuu riskejä arvopapereiden haltijoille. Muutosmäärän laskeminen on riippuvainen laskenta-asiamiehen valitsemasta viitekorosta (Reference Interest Rate) ja sen määrittelemästä riskipreemiosta (Risk Premium).

4. Kohde-etuuden arvovaihteluun liittyvät riskit

Kohde-etuuden arvovaihtelu vaikuttaa arvopapereiden haltijoiden sijoitukseen. Arvovaihtelu saattaa vaikuttaa haitallisesti arvopapereiden arvoon.

Sijoittajat, jotka sijoittavat kohde-etuuteen sidottuun arvopaperiin kantavat arvopapereiden haltijoina myös kohde-etuuteen liittyvät riskit. Sijoittajiin kohdistuu erityisesti kohde-etuuden arvovaihteluun liittyvät riskit. Kohde-etuuden arvovaihtelu on riippuvainen useista tekijöistä: yrityskohtaisista järjestelyistä tai taloudellisista tapahtumista, jotka liittyvät kohde-etuuteen, yleisistä taloudellisista tekijöistä ja spekulatiivisesta toiminnasta. Näin ollen arvopapereiden kohde-etuuksien tulevasta kehityksestä ei voida esittää luotettavia väitteitä. Kohde-etuuden aikaisempi kehitys ei ole luotettava osoitus sen tulevasta kehityksestä. Kohde-etuuden valinta ei perustu liikkeeselaskijan kohde-etuuden tulevaan kehitykseen liittyvistä odotuksista tai arvioista. Näin ollen arvopapereiden haltijat eivät pysty ennakoimaan arvopapereista tulevaisuudessa takaisinmaksettavaa määrää. Jos kohde-etuuden arvo laskee, arvopapereiden haltijoille saattaa aiheutua merkittäviä tappioita (sisältäen **täydellisen tappion**) liittyen arvopapereiden takaisinmaksuun tai ennenaikaiseen eräännyttämiseen..

5. Kohde-etuuteen liittyvät riskit

Arvopapereiden haltijoiden sijoitukseen kohdistuu vastaavia riskejä kuin suoraan osakesijoitukseen. Näihin kuuluvat yhtiön osakkeen hinnanvaihteluun liittyvät riskit ja riski yhtiön maksukyvyttömyydestä tai maksukyvyttömyysmenettelyn tai vastaavan muun valtion lainsäädännön mukaisen menettelyn aloittamisesta ja kohdentamisesta yhtiön varoihin. Arvopapereiden haltija kantaa riskin siitä, että arvopapereiden kohde-etuutena oleva osake saattaa olla **arvoton**, jolloin arvopapereiden luonteeseen kuuluva riski toteutuu. Arvopapereiden haltijat kärsivät tällöin **täydellisen tappion**.

Vilka är de huvudsakliga riskerna som är specifika för Emittenten?

1. Risker till följd av Emittentens begränsade egna tillgångar

Emittenten har endast ett bundet eget kapital upp till vilket den kan hållas ansvarig, som uppgår till 25 564,59 euro. Investerare utsätts därför för en betydligt högre kreditrisk jämfört med en emittent med mycket större kapitalresurser. Följaktligen, om Emittenten, med tanke på dess begränsade egna kapital, inte kan finansiera betalningar som hänför sig till värdepapper som emitterats av den, kommer Emittentens emissionsverksamhet väsentligen att påverkas negativt eftersom emittenten inte eller endast delvis kommer kunna uppfylla sina skyldigheter till följd av sådana värdepapper. Investerare i värdepapper kan därför förlora delar av sin investering eller hela sin investering (**risk för total förlust**).

2. Risker vid hedgingtransaktioner med Société Générale

Emittenten ingår hedgingtransaktioner med Société Générale i relation till värdepapperen. Den relevanta hedgingtransaktionen är avsedd att täcka beloppet för eventuella betalningar som hänför sig till de värdepapper som emitterats av Emittenten. Om de finansiella resurserna som Société Générale tillhandahåller som garant för dessa hedgingtransaktioner i slutändan visar sig vara otillräckliga för att fullt ut kunna täcka fordringarna från alla innehavare av värdepapper som utfärdats enligt garantistrukturen, kommer innehavarnas fordringar, enligt villkoren för värdepapperen, förfalla pro rata till det underskott som Emittenten ådragit sig. Detta innebär att möjligheten att vända sig till Emittenten är begränsad till eventuella faktiska intäkter som erhållits från Société Générale (Begränsad Säkerhet) (eng. Limited Recourse). Det finns inga ytterligare krav från innehavarna av sådana värdepapper gentemot Emittenten, oaktat om emittenten skulle kunna lösa sina betalningsförpliktelser från värdepapperen med andra medel till sitt förfogande. Innehavarna av sådana värdepapper utsätts därför för Société Générales kreditrisk. Således kan investerare i händelse av insolvens i Société Générale förlora delar av sin investering eller hela sin investering (**risk för total förlust**).

Avsnitt C – Nyckelinformation om värdepapperen

Vilka är värdepapperens viktigaste huvuddrag?

Typ och slag av värdepapperen

Värdepapperen är löpande skuldebrev (eng. *bearer bonds*) enligt tysk lag i den mening som avses i § 793 i den tyska civillagen (BGB). Upprättandet av värdepapper regleras av lagarna i Danmark. ISIN och börskod anges i tabellen bifogad denna sammanfattning.

Rättigheterna knutna till Värdepapperen

Värdepapperen ger investeraren, vid inträffandet av viss händelse (så kallad "**Knock-out-Event**"), rätt att kräva att Emittenten betalar ett Inlösenbelopp (eng. *Redemption Amount*) vid inlösen. Inlösen sker i Dansk Krona ("**Emissionsvaluta**").

Värdepapperen har ingen fast löptid och Värdepappersinnehavare kan endast lösa in dem på förutbestämda Slutdagar. Detta innebär att Värdepapperen inte inlöses **automatiskt** på ett visst datum (obegränsad). Värdepappersinnehavare måste lösa in eller sälja sina Värdepapper för att realisera deras finansiella värde.

Inlösenbeloppet för varje Värdepapper är lika med (i) det belopp med vilket Referenspriset för Underliggande på Värderingsdatumet överskrider Lösenpriset tillämpligt på Värderingsdatumet multiplicerat med (ii) Multiplikatorn.

Om ett Knock-out-Event inträffar, **förfaller Värdepapperen värdelösa i förtid**.

Lösenpriset för ett Värdepapper justeras varje kalenderdag med Justeringsbeloppet. Justeringsprocenten beräknas på grundval av Referensräntesatsen och Riskpremien, båda bestämda av Beräkningsagenten.

Emittenten har rätt att justera villkoren (särskilt för att byta det Underliggande) eller att säga upp Värdepapperen vid inträffande av vissa extraordinära händelser (t.ex. upphörande av det Underliggande).

Värdepappers överlåtbarhet och möjligheten till handel

Värdepapperen är fritt överlåtbara och kan i allmänheten handlas fritt. Fri handel gäller med förbehåll för överlåtelsebegränsningar, tillämplig lag samt det regelverk som gäller för clearingssystemet.

Emissionsstorlek

Emissionsstorleken anges i tabellen som bifogas denna sammanfattning.

Värdepapperens status

Värdepapperen utgör ej säkerställda och icke efterställda skulder för Emittenten. I händelse av Emittentens insolvens eller upplösning kommer Värdepapperen att rangordnas *pari passu* med alla nuvarande och ytterligare ej säkerställda och icke efterställda skulder för Emittenten, med undantag för de skulder som är föremål för avtalsenligt eller rättsligt företräde eller efterställdhet.

Var kommer Värdepapperen att handlas?

Ansökan kommer att göras för att Värdepapperen ska handlas på Nordic MTF Denmark med verkan från och med den 11 januari 2021.

Finns det en garanti knuten till Värdepapperen?

Garantins art och omfattning

Emittentens betalning och, i förekommande fall, leveransförpliktelser enligt villkoren garanteras av en ovillkorlig och oåterkallelig Garanti från Société Générale, Paris, Franska republiken, ("**Garanten**").

Emittenten ingår också hedgingtransaktioner avseende Värdepapperen med Garanten. Respektive hedgingtransaktion är avsedd att täcka beloppet för eventuella utbetalningar som förfaller enligt Värdepapperen. Emittentens betalningsförpliktelser som härrör från Värdepapperen är begränsade till de finansiella resurser som tillhandahålls av Garanten inom ramen för hedgingtransaktionerna (Begränsad Säkerhet) (eng. *Limited Recourse*). Värdepappersinnehavarnas rättigheter enligt Garantin påverkas inte av den begränsade säkerheten (eng. *Limited Recourse*) och Garantens skyldigheter enligt Garantin är inte begränsade; följaktligen ska samtliga Värdepappersinnehavare fortsätta att ha rätt att inleda rättsliga eller andra förfaranden mot Garanten eller göra gällande andra anspråk mot Garanten för att tillse att skyldigheterna enligt Garantin fullgörs, särskilt med avseende på uteblivna betalningar.

Vilka är de mest väsentliga riskfaktorerna hänförliga till Garanten?

Garantens förmåga att uppfylla sina skyldigheter enligt garantin beror väsentligen på SG-koncernens affärsresultat och ekonomiska situation.

1. Risker relaterade till den globala ekonomin och finansmarknaderna

SG-koncernens affärsverksamheter är känsliga för förändringar på finansmarknader och ekonomiska förhållanden i Europa, USA och på andra håll i världen. SG-koncernen kan möta en betydande försämring av marknads- och ekonomiska förhållanden, särskilt på grund av ekonomiska och politiska kriser eller andra negativa händelser. Sådana händelser, som kan utvecklas snabbt och därmed eventuellt inte förväntas och säkrade mot, kan påverka SG-koncernens driftsmiljö under korta eller längre perioder.

2. Likviditetsrisker

SG-koncernen är beroende av tillgång till finansiering och andra likviditetskällor. Tillgång till finansiering och begränsningar i likviditet kan ha en väsentlig negativ inverkan på SG-koncernens verksamhet, finansiella ställning, resultat av verksamheten och förmågan att uppfylla sina skyldigheter gentemot sina motparter.

Vilka är de mest väsentliga riskerna hänförliga till Värdepapperen?

1. Värdelöst förfall (Knock-out)

På Slutdag: När det gäller en Obegränsad Turbo **CALL** warrant, om Referenspriset för det Underliggande på Slutdagen är **lika med eller lägre än** Lösenpriset, kommer warranten att förfalla **värdelös**. Ju närmare Referenspriset till Lösenpriset, desto högre är sannolikheten för ett sådant utfall.

Under löptiden: Dessutom bär Värdepappersinnehavarna en **väsentlig risk** att deras Obegränsade Turbowarranter **förfaller värdelösa** före utgången av sin löptid. Detta kommer att vara fallet **omedelbart efter ett Knock-out-Event**. Värdepappersinnehavaren får då **ingen betalning**. Köpeskillingen som betalas av Värdepappersinnehavaren för den Obegränsade Turbowarranten kommer att gå förlorad. Värdepappersinnehavaren kommer att drabbas av en **total förlust**. Ju närmare priset på det Underliggande ligger Knock-out-Barriären, desto mer sannolikt är det att en sådan förlust kommer att uppstå.

2. Risker relaterade till en missad period

Förekomst av ett Knock-out-event mellan Slutdagarna: Obegränsade Turbowarranter med obegränsad löptid har den speciella funktionen att warranterna endast får lösas in på **specifika datum**. Den särskilda implikationen av

detta är att om Värdepappersinnehavare missar detta datum måste de vänta till nästa datum för inlösen. De bär då risken att Warranten förfaller värdelös under tiden på grund av ett Knock-out-event.

Realisering av det finansiella värdet på Obegränsade Turbowarranter med obegränsad löptid genom försäljning: Ytterligare risker uppstår av det faktum att Obegränsade Turbowarranterna med obegränsad löptid inte har en begränsad löptid. Värdepappersinnehavarna måste därför sälja sina Obegränsade Turbowarranter med obegränsad löptid för att realisera deras finansiella värde. Detta innefattar bärandet av risken för ett oväntat Knock-out-event som resulterar i en **totalförlust** av den betalade köpeskillingen. Återigen, ju närmare priset på det Underliggande är Knock-out-barriären, desto mer trolig är förekomsten av en sådan förlust.

3. Risker relaterade till justeringen av Lösenpriset

Risker uppstår för Värdepappersinnehavaren från det faktum att Lösenpriset för Turbowarranterna med obegränsad löptid justeras varje kalenderdag med Justeringsbeloppet. Beräkningen av Justeringsbeloppet beror på den Referensräntesats som valts av Beräkningsagenten och den Riskpremie som fastställts av Beräkningsagenten.

4. Risk för fluktuationer i värdet på det Underliggande

Värdepappersinnehavare påverkas av fluktuationer i värdet på det Underliggande. Dessa kan ha en negativ inverkan på värdet på Värdepapperen.

Om investerare köper ett Värdepapper med ett Underliggande bär de som Värdepappersinnehavare också de risker som är förknippade det Underliggande. I synnerhet bär de risken för fluktuationer i värdet på det Underliggande. Fluktuationer i värdet på det Underliggande beror på olika faktorer: Företagshändelser eller ekonomiska händelser som rör verksamheten för det Underliggande, allmänna ekonomiska faktorer och spekulativa aktiviteter. Det är därför inte möjligt att lämna tillförlitliga uttalanden om framtida resultat för det Underliggande för Värdepapperen. I synnerhet utgör inte tidigare resultat för ett Underliggande en garanti för dess framtida resultat. Valet av ett Underliggande är inte baserat på Emittentens förväntningar eller uppskattningar med avseende på det framtida resultatet för det Underliggande som valts. Värdepappersinnehavare kan därför inte i förväg förutsäga vilken framtida återbetalning de kan förvänta sig för Värdepapperen. Om värdet på det Underliggande har sjunkit kan Värdepappersinnehavarna drabbas av betydande förluster (upp till en **totalförlust**) av återbetalningen av Värdepapperen eller förtida uppsägning av Värdepapperen.

5. Risker relaterade till det Underliggande

Värdepappersinnehavaren bär liknande risker som vid en direkt investering i den Aktien. Dessa inkluderar risker till följd av fluktuationer i bolagets aktiepris. Detta inkluderar risken för att bolaget blir insolvent och för insolvensförfaranden eller ett liknande förfarande, när det gäller ett bolag i ett annat land, inleds avseende bolagets tillgångar. I samtliga fall finns risken för Värdepappersinnehavarna att den aktuella Aktien blir **värdelös** som det Underliggande för deras Värdepapper, och därigenom förverkligar riskerna som följer av värdepapperets beskaffenhet. Värdepappersinnehavarna kommer då att drabbas av en **totalförlust**.
